

## **BUSINESS FUNDING**

CT Business Network offers business funding for all types of businesses  
When banks say no, we like to say yes and can help.

The alternative funding industry is more vital than ever. Traditional banks continue to decline more than 80% of small business loan applications, leaving business owners scrambling for solutions.

For the restaurant industry, business owners need to keep up with the times. Customers have many brands to choose from. Lately restaurants are growing, expanding and want to keep up, wether to upgrade a bar area, new furniture, or maybe an expanded patio.
